Various Rebel Groups Joining Sonora in Combine Against Rule of Carranza-U. S. Watching Situation.

WASHINGTON, April 22rapidly increasing area of Mexico. Administration off-ied them carefully, but with-ing any indication that the and them carefully, but without beforeing any indiration that the position of
this government would be other than
that of an observer. The novement
beguit by the secession of Science has
gained the support of at least four
other states, the adherence of various
groups of federal forces and the promless by Villa, Manuel Palaer and one
or two other minor rebel chiefs that
they will join in the fight on Carranga, the reports showed.

So far as could be learned here, Carranga has made no overtures to the
American government for assistance,
of their directly or indirectly.

The rulings which have prevented his
government from getting arms and
ammunition in the United States are
still in effect. However, a request for
permission to import war materials,
would cause no surprise. The presence
here of Gen. Salvador alvariale as the
unofficial representative of Alvario
Obregon accepted leader of the new
revolt, has not breught from the administration any sign of its willingness to recognize the belligerency of the
anti-government group.

One small hope of an adjustment of

mess to recognize the beligerency of the anti-government group.

One small hope of an adjustment of the situation in Mexico was offered today in the announcement that a mission from Mexico City was on its way to Sonora for a conference with the leaders there. Members of that mission were reported to have held a conference with Carranza, but here it was recarded as doubtful if the secessionists would listen to any proposal made. Already, it was pointed out by these who have watched the growth of the movement, the revolt has spread over such territory and gained such support not only from partisans of Obregon, but from those who have been in the field promition of the federal army that even its leaders would have difficulty in checking it.

FEDERAL TROOPS ARE **NEARING SONORA**

AGUA PRIETA, Sonora, April 22—A conference between P. Elias Calles and eastern military leaders of Sonora and the reported approach of a federal mediation commission were the outstanding features today in Sonora's secession movement.

Calles was expected last night but his arrival was delayed. The federal commission was reported at San Antonio yesterday. No word has been received in addition to that report.

Meanwhile indications of a pending attack by Carransa treops on the Chinushua boundary was not lacking. Gen. J. M. Pina, in command here, said a federal scouting party had been reported near a pass close to the American border. State troops have been dispatched to guard that as well as all other passes in the mountains separating the two states. or the two states. Further successes for the state troops invading Sinaloa were reported yester-day to military headquarters at Agua

Plans for repairs or resurfacing of practically every paved street in the city have been prepared by the engineering department and approved by Commissioner T. H. Allen, but actual work is being delayed because of slow deliveries of concrete and gravel.

Legarinent estimates call for 1,500 cars of gravel this year, or more than 100 cure a month. Only about 75 cars have been received since Ian. I up to April 10 concrete is grabbed up by the first firm offering a slight advance over the market price, as fast as a car reaches the yards. No contracts for concrete outd he made by the city this year, owing to the extraordinary demand for road building and other construction work. However, Commissioner Allen is promised preference in distribution now and hopes to accumulate a number of carloads within the next 30 days for use during the summer. Warshouse space will be arranged for in one of the big city stables. Arrangements are also being made for storage of gravel on a convenient spur track. It will be handled from the cars and later from the gravel piles into tracks by a new dipper crame which the engineering department will buy.

CRYSTAL SPRINGS TO SELL \$46,000 OF BONDS

CRYSTAL SPRINGS, Miss. April 22. (Spl.)—The mayor and board of aldermen at a special call meeting held Monday night ordered the issuance of \$40,000 in bonds, \$25,000 being to refund the water works and electric light bonds now maturing, and \$6,000 to refund the school bonds new maturing and \$15,000 for the purpose of improving the electric plant by installing an alternating system in the place of the antiquated direct current system now in use.

These bonds were ordered issued 60 days ago but were held up on account of pending legislation before the Mississippi legislature regarding the issuance of bonds in municipalities which laws have changed the entire scheme of issuing bonds. This has delayed the city a good deal in these issues but the bond attorneys of New York declined to approve any issue of bonds until these laws were finally promulgated.

A Woman's Mistake

Substitutes Often Worthless

It is a well-known fact that Lydia E. Pinkham's Vegetable Compound is the most successful remedy for woman's ills obtainable. Actually thousands of women have proved this to be true. Notwithstanding, some women make the mistake of trying something else, said to be just as good, simply because it is new.

Is it not foolish to risk the possible bad results of such experiments—and is it not better to depend upon a medicine that you know is reliable—a medicine that has had no equal for more than forty years?
